Re: Comments submitted into ET Docket No. 03-104, In the Matter of Inquiry
Regarding Carrier Current Systems including Broadband over Power Line
Systems

Dear Sir or Madam:

Please find attached a near-final draft of a law journal article regarding the Commission's Broadband Over Power Line Notice of Inquiry proceeding, *The FCC's Broadband Over Power Line Inquiry: Considering Radio-Frequency Interference Rules of the Road for the Third High-Speed Communications Wire*, written by me and Professor Newton Howard and scheduled for publication in the January edition of the Virginia Journal of Law and Technology (VJOLT). We are submitted our article as late-filed comments with the hope that it will be accepted and considered by the Commission, despite its lateness, and that it will further thoughtful debate in this proceeding.

We welcome any comments or suggested changes to the article, which will appear in final form in the January edition of VJOLT. I can be reached by e-mail at dtobenkin@hotmail.com.

Respectfully submitted,

<signed>

David Tobenkin
